'the following is the Platform the Republicans are standing on:

PLATFORM AND RESOLUTIONS.

The countage of the general depressed character of every business and other enterprise throughout our entire country, to bring about again a season of general prosperity and gladness to the whole people, and we most heartily endorse the said platform in its entirety.

We believe the free coinage of silver, on a ratho of 16 to 1 to be one of our rights as citizens of this country. We believe, that without this our whole county will continue to suffer from business depression and other relative causes and we stand ready at all times, and in every proper manner, no matter by what name it may be known, to assist to success, that partypor organization, which has for its object the restoration of silver to its proper place as money in this country, and with this object in view, of such cital importance to every man in this commonwealth, we join hands, without regard to former political affiliations, and labor for the common good.

The demoralizing effects of the lottery system being so well known and being daily more and more understood, we pledge our strongest efforts to defeat the establishment of a lottery in this, state.

Reforms should first begin at home. Efficient and competent officers in every department of our country governent, in those times of general depression, and in view of the indebtedness under which we labor, and which sooner or later, must be paid, are one of our primest necessities, and we pledge our best efforts to defeat the establishment of a lottery in this, state.

Reforms should first begin at home. Efficient and competent officers in every department of our country governent, in those times of general depression, and in view of the indebtedness under which we labor, and which sooner or later, must be paid, are one of our primest necessities, and we pledge our best efforts to defeat the establishment of a lottery in this, state.

Reforms should first begin at home. Efficient and competent officers in every department of our country government, in those times of general depression, and in v

some of the most important industries in the State of Nevada, including that of wool production, which even now formalises subsistence to a large number of our people.

Fournat We recognize the fact that if the labor market is overstocked—if there are millions of tidle men clamoring for work, the employer is given an undue advantage, and despite the best directed and best intended efforts of labor organization to prevent it, the price of labor is bound to fail.

This condition exists generally throughout the United States at the present time, and is largely owing, as we believe, to the vast tide of immigration constantly rolling into the country. Therefore we favor wise restriction of immigration—not in the spirit of prejudice, not upon the theory that the respectable foreigner is an unworthy person but solely with a view of relieving the labor market and insuring to the American clitzen, whether a native or foreign born, as honest day's pay for an honest day's work.

FIFTH—Recognizing the importance and necessity of providing a means whereby hous at labor may enforce recognition of its just demands from all classes and conditions of employers engaged in a business of public nature and believing that artitation based on full information of all the facts in each case, will secure justice to all concerned. We hereby demand that our Representatives in Congres. use all honorable means to secure the passage, at the earliest possible moment, of a national Labor Arbitration Law, providing fully for the adjustment of such differences as may arise between labor and its employer, and clothing such Act with such proper and adequate vindicatory and penal causes as will enable those interests to compete a compliance with its provisions.

We also favor the creation of a State Board of Arbitration of like character for the same purpose and clothed with similar powers.

Sixtim—We demand the immediate and unconditional repeal of the suspensory clause of the Union, and Newcha receive her share of the State porsents a false issue

REPUBLICAN TICKET

of that party, of Senate Joint Resolution No. 8, by which our Senators and Representative in Congress work urgently requested to do all in their power to promote and secure the passage of an Act of Congress for the adjustment or refunding of the indebtedness of the Southe n Pacific Railroad, thus emphatically endorsing the principles of the Reilly bill now pending in Congress and going to a greater length in subserviency to that company than any party in the State of Newada had ever gone before. And we cordially endorse the action of those Republican Senators who voted against that resolution, and the course of the Republican Governor who refused to give it his sanction.

Upon the maturing of the debts of the Pacific Raifroad Companies to the United States Govern-ment, we are in favor of the Government speedily enforcing its demand in the best and most advan-

Upon the maturing of the debts of the Pacific Raifroad Companies to the United States Government, we are in favor of the Government speedily enforcing its demand in the best and most advantageous way.

Exauth—We are most beartily in favor of the construction of a competing line of raifroad across the State of Newada, and urgs the Legislature of the State to give proper encouragement to any parties who will underlake the construction of such road.

NENTH—We indignantly condemn the action of the begisture, for passing a propose d Constitutional amendment authorizing a lottery. We declare the Republican party of Newada to be unalisationly opposed to any lottery whatever and aspecially the proposed one, which would shawelessly make the State of Newada a stock-holder therein, and every county in the State a sharer of its booty. We urgently recommend that every Republican County Convention in the State piedge its legislative nominess to well against the pending proposed lottery amendment to the Newada Constitution.

TENTH—We invite the especial attention of the people to the splendid Republican administration of our State Government for the last four years, and if successful, we piedge a maintenance of the same high standard during the four years to come.

ELEVENTH—We are carnestly in favor of reclaiming the arid lands of Newada in every practicable way, and believe that it is the duty of the United States Government to aid in the work.

TWILTENENT—We admit the honest surpose of mining claims are patented, should be so revised as to prevent the abuses referred to.

THIRTENENT—We admit the honest surpose of the mass of our fellow citizens who have raised the Silver and Populist standards in this state, but we conscientionally believe that they are mistaken and misms, and in all the history of the world the stragalers from those armies never yet struck a deciaive blow for any cause. The great armies in American politics are funght and won by great armies, and in all the history of the world the stragalers from those su

Platform.

Your Committee on Resolutions and Platform, having attended to the duty assigned them, beg leave to make the following report:

WHERMAS: It has been demonstrated by the history of the past two years—pregnant with bonds and bankraptey at home, corruption and cowardice in foreign relations, disaster and death, starvation, strikes and general stagnation of all business enterprise,—that the People's Party was formed none too soon to svert the complete destruction of our form of government and the liberties of our people. Therefore be it

RESOLVED: That we endorse the declarations and platform of the People's Party adopted at Omaha on the 4th. of July, A. D. 1892, as follows:

PEOPLE'S PARTY PLATFORM. PEOPLE'S PARTY PLATFORM.

Adopted at the National Convention July 4, 1887.
We declare—1. That the union of the labor forces of the United States, this day consummated, shall be permanent and perpetual. May its spirit enter into all hearts for the salvation of the republic and the uplifting of mankind.

2. Wealth belongs to him who creates it, and every dollar taken from industry without an equivalent is robbery. "If any ill not work, neither shall he eat." The interests of rural and civic labor are the same; their interests are identical.

civic labor are the same; their interests are identical.

3. We believe that the time has come when the railroad corporations will either own the people or the people must own the railroads; and should the government enter upon the work of owning and managing any or all railroads, we should favor an amendment to the constitution by which all persons engaged in the government service shall be placed under a civil service regulation of the most rigid character, so as to prevent the increase of the power of the national administration by the use of such additional government employees.

4. We demand a national carrency, safe, sound, and flexible, issued by the general government only, a full legal tender for all debts, public and private, and that without the use of backing corporations, a just, equitable and efficient means of distribution direct to the people, at a tax not exceeding two per centum per annum, be provided, as set forth in the sub-treasury plan of the Farmers alliance, or some better system; also by payments in discharge of its obligations for public improvements.

5. We demand the free and unlimited coinsage of silver and gold at the present legal ratio of 16 to 1.

to 1

6. We demand that the amount of the circulating medium be increased to not less than \$50 per

capits.

7. We demand a graduated income tax.

8. We believe that the money of the country should be kept as much as possible in the hands of the people, and hence we demand that all estern and national revenue shall be limited to the micessary expenses of the government, economically and honestly administered.

9. We demand that postal savings banks be established by the government for the safe deposit of the earnings of the people and to facilitate exchange. change.

10. Transportation being a means of exchange, and public necessity, the government should own and operate the ratiroads in the interests of the

and operate the railroads in the interests of the people

11 The telegraph and the telephone, like the postoffice system, being a necessity for transmission of news, should be owned and operated by the government in the interests of the people.

12. The land, includit gail the natural sources of wealth, is the heritage of all the people, and should not be monopolized for speculative purposes, and alten ownership of land should be prohibited. All lands now held by railroads and other corporations, in excess of their actual needs and all lands now owned by aliens should be reclaimed by the government and held for actual settlers only.

And Wherakas: It is apparent that there is a collusion between the leaders of the so called Republican and Democratic parties, is order to luit the people into fancied security to change admin-

istrations, in name only, that they may the better serve their foreign masters, as has been the case for the last twenty-five years, and
WHEREAS: It is necessary, in order to conquer the common enemy, to unite under a common strength away in fostering local parties of different names. Therefore be it further
HEROLYED: That, in our opinion, the Silver Party of this State should drop its local name and fall into line with the National People's Party, in order to accomplish the reform which it seeks by being organized for the great national conflict of 1806. And
WHEREAS: We recognize the fact, that those who are not for us are spained us, and that fusion with enemies or luke warm friends is always a source of weakness to those who are struggling or justice. Therefore be it further
HEROLYED: That our delegates to the People's Party Convention to be held at Reno on the 5th day of Spiember 1894, be, and they hereby are, instructed to oppose any fusion with any other party whatever, and that if they give proxies to others, that they instruct their proxies to the same effect.
